CRREL starts 5th year of ILEAD with Dartmouth College

CRREL's history was the subject as the Dartmouth College ILEAD spring term kicked off 24 March with a variety of courses of interest to the local adult learning community. ILEAD...pronounced like Homer's "Iliad" and an acronym of *Institute for Lifelong Education at Dartmouth*...was founded in November 1990.

The five-week course, entitled "The How, What, And Why of CRREL" gives senior students a chance to not only experience CRREL in the classroom, but also provide an opportunity to visit the laboratory as the capstone class. The first session kicked off with Charlie Collins, Alaska Project Office and Peter Smallidge, Hanover, leading 20 students in the discussion of CRREL's first half century.

Subject areas include: 'Polar Snow and Ice', Dr. Don Perovich & Jackie Richter-Menge; 'Civil Works Programs', Steve Gaughan; 'Operational Hydrology', Dr. Steve Daly & Carrie Vuyovich; and 'An Inside Look at CRREL', Leonard Zabilansky.

POC: Susan Koh, 603.646.4500, Susan.F.Koh@usace.army.mil
